

*West Pro* Web Services

*Website Development Course*

**Student Website Agreement**

This website is property of **West Pro Website Hosting and Computer Training** and is provided at no cost to you explicitly for your course work. When you have completed, or left the class, the website will immediately be returned to default, empty condition.

**Save your work by retaining a copy of all your files, images, etc. on a floppy disk, or flash drive. Always make a second copy of new work on a second storage device. Do this whenever you make a change to your files as a precaution against the loss of your hard work.**

If you would like to obtain website hosting and/or a domain name. Discuss it with your Instructor. **West Pro** would be pleased to have you as a web-hosting client.

As a student guest of **West Pro**, the following must be observed - website content (text, image, sound, etc.) uploaded to the West Pro server must not contain anything that is considered:

1. Sexually explicit.
2. Drug related.
3. Ethnically, culturally, or morally, incorrect.
4. Do not use this website as a business website since your business website would disappear when you finish the class and it is emptied of all contents.

Any such content will be reviewed by the hosting school and **West Pro** and if found in violation of the agreement, the privilege to use that website will be revoked and the website returned to default condition.
